

Glyphosate

Glyphosate 95%Tech.,41%,62% Glyphosate IPA Salt(480G/L),450G/L

Common Name: Glyphosate

Chemical Name: N-(phosphonomethyl) glycine

CAS Registration No.: 1071-83-6

Specification:

Active Ingredients:

95% **Glyphosate** technical material, Not less than 95%;

62% **Glyphosate** IPA Salt: Glyphosate IPA Salt Content : Not less than 62% (W/W)

41% **Glyphosate** IPA Salt: Glyphosate IPA Salt Content : Not less than 41% (W/W)

Appearance & Odor: white or yellowish & odorless crystal powder

Melting Point: 230 degree centigrade

Solubility: Water 1.2% Practically insoluble in organic solvents.

Toxicity Status: Low toxic to both human and animals.

Oral LD50 (Acute) Rat: 4320mg/kg

Dermal LD50 (Rabbits): >7940mg/kg

Eye & Skin Irritation (Rabbits): Slight

Storage: Kept in a cool dry place.

Expiration Period: At least two years.

Packaging:

Glyphosate 95% Tech: 25KGS/BAG ,600KGS/BAG,840KGS/BAG

The inside lining polyethylene thin film, the external use plastic weaves the bag or the paper bag packing.

Make adjustments according to customers' requirements.

62% Glyphosate IPA Salt:200L plastic drum, Net Weight : 250KG

41% Glyphosate IPA Salt:1L/5L/20L packagings or on the clients'requirements.,mostly 200L plastic drum
